IAITAM Announces New Provider Member

SUFFIELD, OHIO (February 27, 2007) - International Association of Information Technology Asset Managers, Inc. ("IAITAM") announced today that Asset Management International, LLC ("AMI") has joined the association as a Provider Member. AMI, a Seattle-based software company, has extensive experience in deploying asset tracking solutions for enterprise and midsize IT organizations. AMI's software solution, AssetTrack, provides mobile software with barcode and RFID technology to help IT organizations streamline their asset tracking processes such as receiving, inventory, IMAC and disposal.

IAITAM's members will benefit from AMI's membership as Thomas Watson, President and CEO of AMI, works with IAITAM to produce asset tracking best practice web seminars. "I am thrilled that AMI has joined IAITAM as a Provider Member. Asset tracking is a core requirement for a robust asset management program. AMI's expertise will help develop efficient and repeatable asset tracking processes which will drive the maximum value from their asset management solutions," states Rich Kaseler, Vice President of Industry Best Practices at IAITAM. "It is crucial to IAITAM's goals to continually seek out and develop partnerships with providers of services to the IT Profession like AMI."

In addition to all the benefits AMI will receive as a Provider Member of IAITAM, AMI will have the opportunity to share its expertise with IAITAM's impressive membership base around the world. Together, through targeted marketing efforts, IAITAM and AMI will work to educate the IT profession.

"We are very pleased to be a part of IAITAM," Mr. Watson said. "As an authority on asset management best practices, IAITAM is the perfect forum for AMI to share its knowledge and experience with the world-wide asset management community."

About IAITAM

IAITAM is dedicated to meeting the needs of the IT Asset Management professional, including but not limited to Software Asset Managers, Hardware Asset Managers, and Information Technology Asset Managers, in their search for a centralized resource devoted to expanding and codifying information and knowledge within the IT Asset Management profession. IAITAM fulfills the organizational requirements of the IT Asset Manager through superior education, advanced training and multi-faceted certification programs delivered by IAITAM knowledge transfer experts. IAITAM is the leader in establishing standards for Industry Best Practices and it empowers professional Software, Hardware, and Information Technology Asset Managers with the knowledge they need to enhance the IT discipline and its contribution to the overall success of an organization of every size and in every industry around the globe. Servicing members and clients throughout the world, IAITAM is uniquely qualified to fulfill the educational, business, career and IT needs of all of its members and clients.
